Business Update Release

BEW delivers Twist Lock Teeth Bayonet Agitated Nutsche Filter Dryer (ANFD)

Order valued at Rs. 5.0 crore

Delivered to International Manufacturer in Thailand

Mumbai, 25th September 2023: BEW Engineering - Among leading designer & manufacturer of process equipment for Pharmaceutical & Chemical Industry, is pleased to announce that the Company has successfully delivered a Twist Lock Teeth Bayonet Agitated Nutsche Filter Dryer (ANFD) machine of Rs. 5.0 crore order value with a capacity of 22 KL to a reputed international manufacturer of Thailand in the Pharmaceutical Sector.

ANFD is highly specialized piece of equipment used in the pharmaceutical, chemical, and food industries for the drying and filtration of solids, which incorporates several key features that make it unique and efficient in its operation. Its unique design and features make it an indispensable tool for processes requiring precision, purity, and efficiency in the separation and drying of solids from liquids.

Twist Lock Teeth Mechanism: The twist lock teeth feature refers to a secure locking mechanism that ensures a tight seal between the vessel and its cover. This feature is crucial in preventing any leaks or contamination during the drying and filtration process, ensuring the purity and integrity of the final product.

Management Comment:

Commenting on this development, **Mr. Prakash Lade, Chairman, BEW Engineering Limited** said:

"I am thrilled to bring you some extraordinary news that highlights our dedication to achieving the highest standards of quality and our continuous pursuit of innovative solutions. BEW Engineering Ltd has reached another important milestone by effectively delivering a Twist Lock Teeth Bayonet Agitated Nutsche Filter Dryer (ANFD) machine valued at Rs. 5.0 crore. This exceptional machine possesses an impressive capacity of 22 KL and was entrusted to us by a distinguished international pharmaceutical manufacturer based in Thailand.

The uniqueness of this ANFD machine lies in its ingenious bayonet design, featuring a twist-and-lock mechanism that securely attaches the cover to the vessel. This innovative design not only simplifies access to the vessel's interior but also streamlines maintenance and cleaning procedures, setting a new standard of efficiency and convenience in the industry.

This achievement fills us with immense pride and happiness, as it demonstrates our unwavering dedication to pushing the boundaries of what's possible in engineering and manufacturing. Being entrusted with such a significant project by a reputable global player speaks volumes about our expertise and capabilities.

As we embrace this momentous achievement, we are excited about the doors it opens for us in the international market. This success is a step toward solidifying our presence on the global stage, building a brand name that represents quality, innovation, and reliability.

I want to express my deep appreciation to every member of the BEW Engineering Ltd family for their relentless commitment to excellence. Together, we are creating a legacy of innovation and success that will continue to shine brightly in the international arena."

Company Overview

Incorporated in the year 2011, BEW Engineering Limited ("BEW") is engaged in the design and manufacturing engineers of Pharmaceutical & Chemical plants and process equipments.

BEW designs and manufactures special range of filtration, mixing and drying equipments specifically used in Pharmaceuticals, Sterile Applications, Intermediate Compounds, Fine Chemicals, Chemicals, Agro Chemicals, Pesticides, Insecticides, Dyes and Food Products. These equipments are manufactured from material such as Stainless Steel, Alloy Steel, and Hastelloy etc.

The Company's major products are Agitated Pressure, Nutsche Filter Dryer (ANFD), Rotocone Vacuum Filter Dryers (RVFD), Cantilever Rotocone Vacuum Dryer (RCVD), Retractable Plough Shear Mixer, Dryer Agitated Pan Dryer Rotary Vacuum Paddle Dryer (RVPD) and Spherical Dryer. The portfolio of products currently includes design and manufacturing of filters and dryers for chemicals industry comprising of Pharmaceuticals like API Agro Chemicals and Specialty Chemicals.

Having a registered office at Dombivali and being a leading design and manufacturing engineers of Pharmaceutical & Chemical plants and process equipments, the Company has developed long term relationships with reputed and renowned customers globally, which include corporations such as Cipla, Ipca, Lupin, Dr. Reddy's, Sun Pharma, SRF, Mylan, Biocon, Jubilant Ingrevia, among others.
